PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1Pla (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small-arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Kolomna Ammunition Depot Southwest is located 25 kilometers (km) south-southwest of Kolomna and 9 km north of Ozery (Figure 1).

The installation covers approximately 150 acres and consists of a double-secured ammunition storage area and an adjacent support area. The storage area contains 15 ammunition storage buildings, 2 small explosives storage buildings, and 5 support buildings. The support

area contains 1 administration building, 4 barracks, 9 quarters, and 9 support buildings (Figures 2 and 3).

The area was [REDACTED] missions between [REDACTED]. One barracks was possibly under construction on summer [REDACTED] coverage. Light activity is observed on all coverage.
